

REVOLUTION™ 36CF

CLEAN FACE GAS FIREPLACE

FIREPLACE
XTRODINAIR™

Imagine a Fireplace for Every Room

Rectangular model with Weathered Brick Fireback and optional Colonial Andirons.

You Say You Want A Revolution:

The Revolution clean face gas fireplace by Fireplace Xtrordinaire is just that - a revolution in design and high performance. With advantages not found anywhere else, it's as close to a traditional masonry style fireplace as you can get, but has the latest in modern fire technology. And this clean face fireplace really heats. Others are merely decorative. The Revolution delivers the powerful heat output you need in cold weather at the level you need. Available in rectangular or arched designs. Heat your home with something Xtrordinaire. And let the Revolution begin.

CLEAN FACE GAS FIREPLACE

Arched model shown with Herringbone Brick fireback and optional Arabesque Andirons

Thermostatic Modulating Remote Control - Controls ON/OFF, High/Low Settings and Room Temperature.

Wireless Modulating Wall Mounted Control - Controls ON/OFF and High/Low Settings

Convenient Operation

Our Home Comfort Control System gives you thermostatic control at your fingertips from anywhere in the room. The hand-held and wireless modulating wall control program all functions including on/off, room temperature and flame height adjustment. Both remote control and wall mounted controls come standard with the fireplace.

Advanced Performance

There's nothing traditional about the Revolution's performance. You have the ultimate in variety and control with variable flame regulation and heat output. The Revolution offers two heat settings instead of the industry standard of one. Operate the fireplace in the "High Heat Mode" in which most of the heat is radiated into the room or engage the heat damper. When open, the damper allows 30% of the heat to be released up the chimney. These features allow you to enjoy your fireplace year-round, and you manage the heat for your home the way you like it.

Classic Looks

The Revolution combines a classic fireplace look with no grills or louvers, and the slim outside trim allows a huge view of the fire (Rectangular 1050 sq. in. of glass). Reversible brick firebacks, high quality andirons, a large, detailed log set cast from real wood logs and a gorgeous flame simulate a traditional wood fire. The built-in flame control center is completely hidden so your only focus is on the fire.

Andiron

Wrought Iron
Andiron

Firescreen

Finish your Revolution installation with a decorative firescreen. Firescreen features detail legs and handle for a traditional fireplace look. Ideal if you have small children in your home.

Available in metallic black paint finish.

REVOLUTION 36CF™ CLEAN FACE GAS FIREPLACE

Features:

- No grills for a traditional masonry fireplace look.
- Durable, high temperature, 5mm silica coated ceramic glass. Fire viewing area 1050 sq. in. (rectangular model).
- Realistic, five-piece detailed log set cast from real firewood.
- Engage the Manual Heat Damper to release 30% of the heat. This allows for less heat into the room and year-round enjoyment of the fire.
- Digital Home Comfort Control System can be operated by the hand-held remote control and the wireless wall control.
- The Electronic Gas Valve can be run for greater efficiency in the "Intermittent Pilot Mode" with the gas pilot turned off until you need it or "Standing Pilot Mode", with the gas pilot always on, for reliable cold weather operation.
- Natural (NG) or Propane (LP) operation.
- Uses ONLY Simpson Duravent 8 5/8" x 6" chimney.
- Seven Year "Real World" Warranty.

Framing Dimensions: See Installation Manual

1. Hearth Requirements: Extends 10" from face and 49 1/2" wide when installed flush. Not required when raised 6" (See Installation Manual for details)
2. Non-combustible facing.
3. Side Wall Clearance: 10 1/2".
4. Mantle Clearances: 48 1/2" from base of fireplace. Maximum allowed mantle depth: 12"
5. Minimum fireplace enclosure height 82". Measured from base of fireplace. 96" minimum ceiling height in room.
6. Minimum framing: 49 3/4" wide x 56 3/4" tall x 25" deep.
7. The fireplace must be placed on cement board.

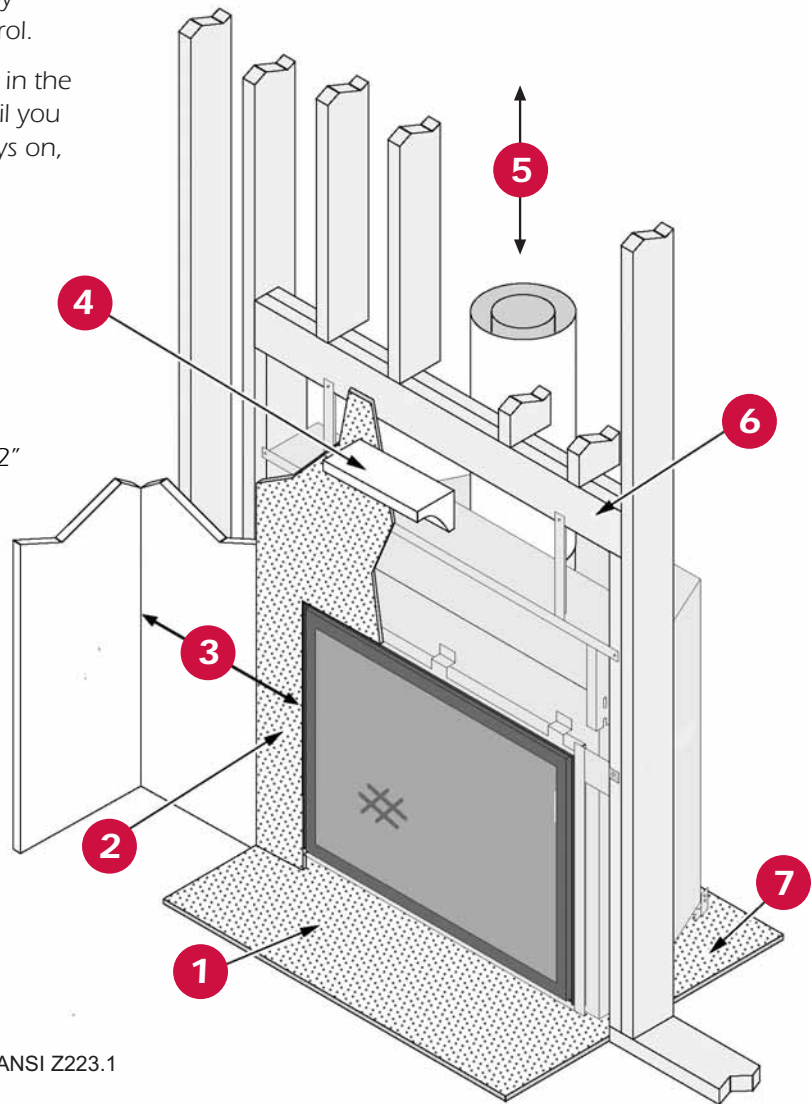

Tested and Certified by OMNI-Test Laboratories Inc. to ANSI Z21.88b "Vented Gas-Fired Direct Fireplace Heater".

Must be installed in accordance with all local codes, if any; if not, follow ANSI Z223.1 and the requirements listed in the Owner's Manual.

Note: Improper installation of your gas appliance or failure to operate it in accordance to the guidelines detailed in the Owner's Manual may negate your warranty. We recommend all Fireplace Xtordinaire appliances be installed and maintained on an annual basis by your specialty hearth retailer.

Natural Gas Input Rating & Performance:

- Adjustable High Heat System:
28,500 – 50,000 Btu's (NG)
26,900 – 49,000 Btu's (LP)
- Steady State Efficiency: 74%
- Heater Rated Fireplace: Heats up to 1,200 to 2,000 sq. ft.*
*Heating capacity will vary depending on the temperature zone you live in.
